# ABOUT US

## OVERVIEW

Subnet Recruitment Training and Assessment Services Inc. is a duly licensed recruitment and consulting agency located in a prestigious, strategic, and accessible business district in uptown Manila. Currently operating in Eastwood, Libis, Quezon City - our office is surrounded by upscale companies. We search, recruit, document, process and deploy highly skilled, professional, and competent workers from the Philippines to any international destination.

Subnet uses a network of offices connected 24 hours a day by our IT infrastructure around the world to ensure 24-hour coverage to the industry. We supply and manage HR services and training to the major industry players.

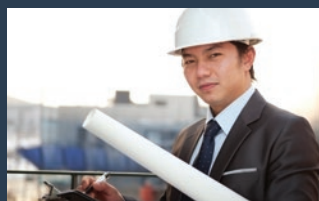

## OUR MISSION

Our commitment is to deliver top-notch services not only to our international clients but also to highly proficient Filipino workers. This is done by supplying an efficient workforce to the global market and by spreading the Filipino talent worldwide. Principally, we aim to accomplish leadership in the recruitment industry by making it world-class, epitomized by satisfactory administration, well-driven, productive, and knowledgeable personnel with passion for excellence.

## OUR VISION

Our vision is to be one of the top performers in the field of international manpower services. With our continuous efforts to innovate our system along with technological advancements, social responsibility, and drive for professional excellence, these aspirations will gear us toward positive growth and prominence in the field of the Philippine Recruitment Industry.

## RECRUITMENT ▼

Subnet RTA is a land-based recruitment agency duly licensed by the Philippine Overseas Employment Administration (POEA) and the Department of Labor and Employment (DOLE).

SubnetRTA has successfully deployed highly-skilled Filipino workers of different categories and with the expertise that our clients require to countries like the Middle East, Micronesia and Asian countries.

# RECRUITMENT

Our teams in Subnet RTA, strive for excellent service and provide valuable market intelligence to our clients for the best human resource solutions. Each executive search ensures sourcing of exceptional candidates in a timely manner, and matched with the requirements of the organizational culture of our clients.

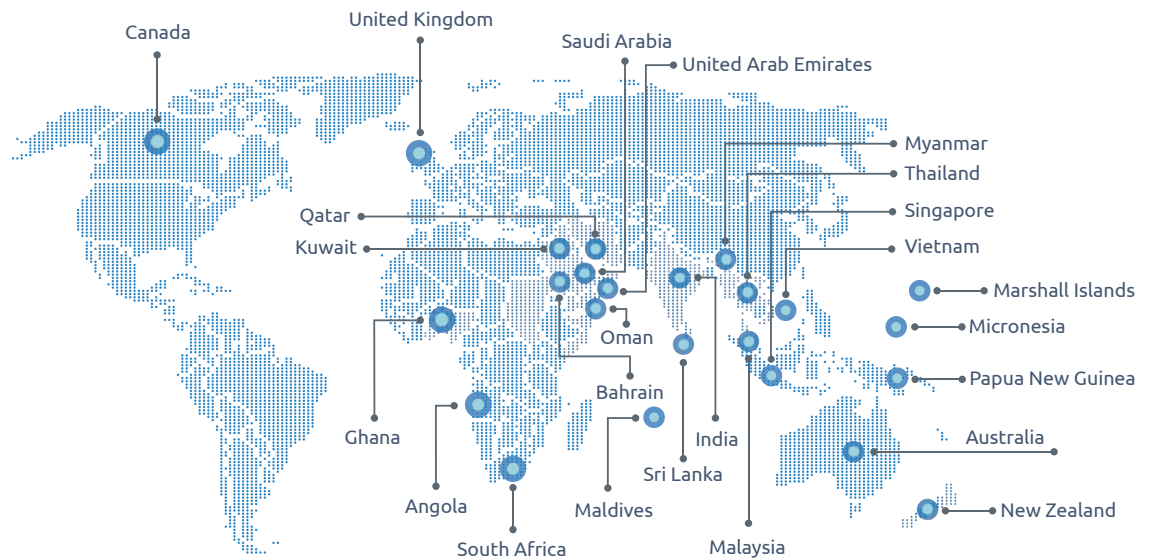

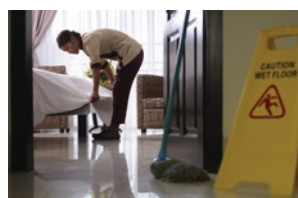

We also apply effective recruitment strategies to draw and recruit the best candidates in the industry. Our propriety database consists of pre-qualified skilled and professional workers from various categories and from different industries.

## We have recruited for most industries:

 Engineering & Construction	 Merchandising	 Information & Technology	 Oil & Gas	 Hospitality	 Education & Training
 Health Care & Medical Services	 Manufacturing	 Accounting & Finance	 Customer Services	 Telecommunications	 Sales & Marketing

## We have recruited for many countries:

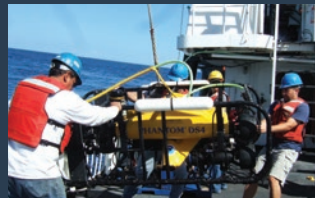

## TRAINING ▼

The Subnet practical and e-learning training systems are accredited by various certifying bodies to enable us to deliver quality training in the Philippines or your world location to a competent standard.

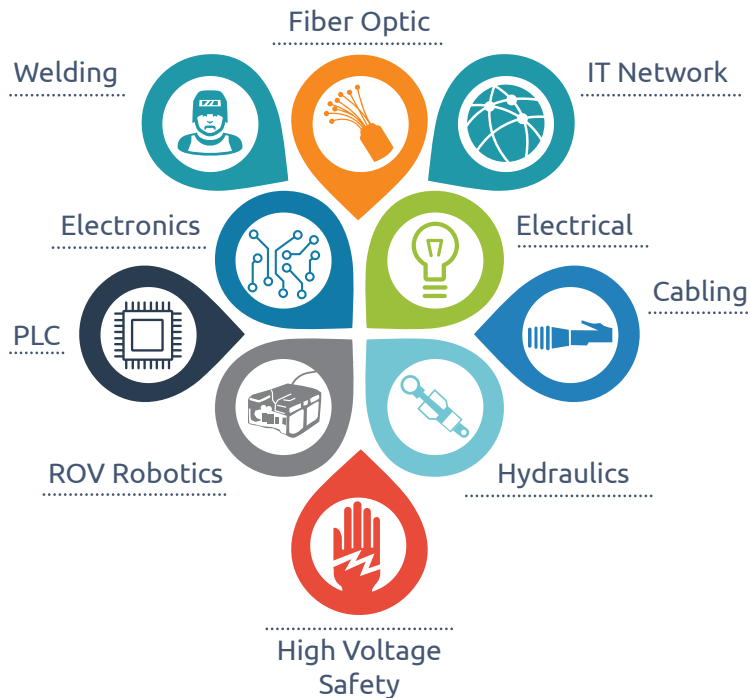

# TRAINING

Some clients may require workers to receive extra or supplementary training before leaving the Philippines. Subnet is accredited to various levels to deliver training and assessment. This training can be as simple as training on particular laws, culture and expected behavior that the worker must understand about the country or company he will work in before arrival or mobilization or as in depth as:

- Procedures or safety training on particular factory or office practices.
- Customer service related to client's particular service in that country.
- Engineering training such as welding for example, where Filipino welders need extra training on a specific weld procedure and material using a certain type of welding plant.
- Training for a recognized accredited certification.

Subnet is accredited by various organizations and authorized to issue certificate courses in many subjects including:

Subnet is authorized to issue recognized international certifications such as:

**Welding:** American Welding Society  
**Fiber Optics & IT Networks:** FOA  
IMCA recognized syllabus

**American Welding Society**

## ASSESSMENT ▼

If your company needs to be assured that technical and managerial staff you are about to hire from the Philippines are competent to the quality and standard you require, then SubNet can assess them here in the Philippines for you, before you spend money hiring and mobilising them to your location.

# ASSESSMENT

Subnet is the **only accredited** AWS-Accredited Test Facility in the Philippines\*.

We have an in-house e-learning and assessment only system where we can assess personnel over the internet even before any initial interview if needed.

We can also assess them further, in-house monitored by our assessors using state of the art assessment software to question and assess their knowledge.

We can give clients access to the assessments and the grading remotely over the internet at the client's location.

We have practical assessment accreditation and training processes also to test practical skills and assure clients of the workers qualifications.

Subnet is able and qualified to have the applicant welders take an online assessment regarding welding symbols and safety to pre-qualify their knowledge of welding safety, drawings, and symbols before even asking them to take a practical welding tests.

This assures clients of background knowledge and saves time and money in testing those not experienced to a certain theoretical level.

Those who passed a certain required level of knowledge can take a practical welding test with Subnet that is AWS accredited, to assess welder and test any weld to the client's required standards..

In fact, Subnet is the only accredited AWS-Accredited Test Facility in the Philippines.

The assessment and test results can be passed to the client to make a selection of the available personnel.

**IMPORTANT**

All or part of this process can be done for many academic or practical job types not just the welding example.
